

# International Research Destination

New Zealand is a regular destination/host for a number of international research projects:

## 2015-03: NASA Scientific Research Balloon

<http://www.csbf.nasa.gov/newzealand/wanaka.htm>

[QLDC-NASA-Balloon-Launch-Fact-Sheet-Feb15-Web.pdf](#)

The image shows a fact sheet titled "NASA balloon launch at Wanaka Airport". It is divided into several sections:

- NASA balloon launch at Wanaka Airport:** A photograph of a large, spherical, white balloon being inflated on the ground.
- Basic facts:** A section with a dark background containing text, icons, and a diagram of the balloon's internal structure.
- Questions and answers:** A section with a light background containing text and a map of New Zealand with a red dot indicating the launch location at Wanaka.
- How do I find out more?:** A section with a red header containing social media icons for Facebook and Twitter, and a QR code.

Logos for NASA, CSBF, and other partners are visible at the bottom left of the fact sheet.
