

KiwiSpace Meetups

KiwiSpace hosts regular Meetups in Auckland with a variety of local and international guest speakers and social events. These events are fairly casual, and designed to provide lots of Q&A time with the speaker, and to allow members to hang out and discuss topics of the moment.

[JOIN OUR AUCKLAND MEETUP GROUP](#)

Wherever possible, we will be trying to do a live webcast or video recording of the Meetup, so people outside of Auckland can follow along. Questions for the guest speaker can usually be posted through Twitter by mentioning @kiwispac.

Past Meetups

Bernie Kerr - a Kiwi working with payloads on the International Space Station

2015-03-22

Sandy Tirtey - Rocket Lab Lead Vehicle Designer

2014-10-17

We were unfortunately not permitted to webcast this session - but it was awesome! Make sure you come to our next Rocket Lab meetup!

Prof. Sergei Gulyaev - AUT University
