

# Antarctica to get satellite broadband

Here's an article about a project a few friends of mine are involved with over in Australia. Because, **everyone** needs broadband...

[Antarctica to get satellite broadband](#), ABC Science (2011-05-12)

*The project aims to serve the growing output of research communities working in the Australian Antarctic Territories, says Antarctic Broadband project manager Michael Brett.*

...

*Current communications in the Antarctic are patchy and insufficient for the needs of the research community, says Brett.*

Check out the project website: [www.antarcticbroadband.com](http://www.antarcticbroadband.com).
